Norwalk Symphony Orchestra at
City Hall

Let's welcome our newest Kindergartener, Angelo Legerme. In honor of MLK Day Angelo says; "My dream is to be a singer."

Congratulations to Dewayne Dickson and Karizma Reyes on the publication of their art and poetry pieces. Their works are printed in a book that is on display at the Norwalk Public Library. We are truly proud of their accomplishment. Here Mr. German presented the two with their own signed copy of the poetry book.

Black Inventors were the theme for Black History Month. Our 4-5 graders researched past inventors and our K-3 reconstructed the Three Little Pig's house using toothpicks and candy.

ART Enrichment

Monday- Thursday
5:00-6:00p.m.

STEM Enrichment

Monday-Thursday
5:00-6:00p.m

*Math Tutoring & Literacy

***Just a Quick Note**

When your child/children miss a day they miss a whole lot. Our center is more than helping with homework. Enrichment programs are also critical for accelerating your child's development. Here children are given the opportunity to learn and create in a productive way. We offer a board variety of center enrichments which can help as well. Our Thursday's Iron Chef is one which teaches children culinary arts. With adult supervision they create their own meals.
